

Energy performance certificate (EPC)

| | | |
|----------------------------------------------|---------------------------|-----------------------------------------------------|
| 28, Aberconway Road PRESTATYN LL19 9HH | Energy rating F | Valid until: 9 January 2029 |
| | | Certificate number: 8131-7129-6620-3250-9996 |

| | |
|------------------|-------------------|
| Property type | Detached house |
| Total floor area | 178 square metres |

Rules on letting this property

! You may not be able to let this property

This property has an energy rating of F. It cannot be let, unless an exemption has been registered. You can read [guidance for landlords on the regulations and exemptions \(https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance\)](https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Properties can be let if they have an energy rating from A to E. You could make changes to [improve this property's energy rating](#).

Energy rating and score

This property's energy rating is F. It has the potential to be C.

[See how to improve this property's energy efficiency.](#)

| Score | Energy rating | Current | Potential |
|-------|---------------|-------------|-------------|
| 92+ | A | | |
| 81-91 | B | | |
| 69-80 | C | | 71 C |
| 55-68 | D | | |
| 39-54 | E | | |
| 21-38 | F | 36 F | |
| 1-20 | G | | |

The graph shows this property's current and potential energy rating.

Properties get a rating from **A (best) to G (worst)** and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D

- the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

| Feature | Description | Rating |
|----------------------|------------------------------------------------|-----------|
| Wall | Solid brick, as built, no insulation (assumed) | Very poor |
| Roof | Pitched, no insulation (assumed) | Very poor |
| Roof | Roof room(s), no insulation (assumed) | Very poor |
| Window | Fully double glazed | Average |
| Main heating | Boiler and radiators, mains gas | Good |
| Main heating control | Programmer, room thermostat and TRVs | Good |
| Hot water | From main system, no cylinder thermostat | Average |
| Lighting | Low energy lighting in 86% of fixed outlets | Very good |
| Floor | Solid, no insulation (assumed) | N/A |
| Secondary heating | Room heaters, electric | N/A |

Primary energy use

The primary energy use for this property per year is 401 kilowatt hours per square metre (kWh/m²).

▶ [About primary energy use](#)

How this affects your energy bills

An average household would need to spend **£2,688 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £1,232 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2019** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 34,238 kWh per year for heating
- 4,191 kWh per year for hot water

Impact on the environment

This property's environmental impact rating is F. It has the potential to be D.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO₂) they produce each year.

Carbon emissions

An average household produces

6 tonnes of CO₂

| | |
|---------------------------------------------|--------------------|
| This property produces | 13.0 tonnes of CO2 |
| This property's potential production | 5.4 tonnes of CO2 |

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Steps you could take to save energy

► [Do I need to follow these steps in order?](#)

Step 1: Room-in-roof insulation

| | |
|------------------------------------------|-----------------|
| Typical installation cost | £1,500 - £2,700 |
| Typical yearly saving | £308 |
| Potential rating after completing step 1 | 42 E |

Step 2: Internal or external wall insulation

| | |
|-------------------------------------------------|------------------|
| Typical installation cost | £4,000 - £14,000 |
| Typical yearly saving | £524 |
| Potential rating after completing steps 1 and 2 | 55 D |

Step 3: Floor insulation (solid floor)

| | |
|------------------------------------------------|-----------------|
| Typical installation cost | £4,000 - £6,000 |
| Typical yearly saving | £95 |
| Potential rating after completing steps 1 to 3 | 57 D |

Step 4: Hot water cylinder insulation

Increase hot water cylinder insulation

| | |
|------------------------------------------------|-------------|
| Typical installation cost | £15 - £30 |
| Typical yearly saving | £26 |
| Potential rating after completing steps 1 to 4 | 58 D |

Step 5: Hot water cylinder thermostat

| | |
|------------------------------------------------|-------------|
| Typical installation cost | £200 - £400 |
| Typical yearly saving | £92 |
| Potential rating after completing steps 1 to 5 | 60 D |

Step 6: Replace boiler with new condensing boiler

| | |
|---------------------------|-----------------|
| Typical installation cost | £2,200 - £3,000 |
|---------------------------|-----------------|

| | |
|-----------------------|------|
| Typical yearly saving | £145 |
|-----------------------|------|

| | |
|------------------------------------------------|-------------|
| Potential rating after completing steps 1 to 6 | 64 D |
|------------------------------------------------|-------------|

Step 7: Solar water heating

| | |
|---------------------------|-----------------|
| Typical installation cost | £4,000 - £6,000 |
|---------------------------|-----------------|

| | |
|-----------------------|-----|
| Typical yearly saving | £41 |
|-----------------------|-----|

| | |
|------------------------------------------------|-------------|
| Potential rating after completing steps 1 to 7 | 65 D |
|------------------------------------------------|-------------|

Step 8: Solar photovoltaic panels, 2.5 kWp

| | |
|---------------------------|-----------------|
| Typical installation cost | £5,000 - £8,000 |
|---------------------------|-----------------|

| | |
|-----------------------|------|
| Typical yearly saving | £313 |
|-----------------------|------|

| | |
|------------------------------------------------|-------------|
| Potential rating after completing steps 1 to 8 | 71 C |
|------------------------------------------------|-------------|

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

| | |
|-----------------|---------------|
| Assessor's name | Darren Counce |
|-----------------|---------------|

| | |
|-----------|-------------|
| Telephone | 01745334411 |
|-----------|-------------|

| | |
|-------|--------------------------------------------------------------|
| Email | rhyl@peterlarge.com |
|-------|--------------------------------------------------------------|

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

| | |
|----------------------|-----------------------------|
| Accreditation scheme | Elmhurst Energy Systems Ltd |
|----------------------|-----------------------------|

| | |
|----------------------|------------------------------------------------------------------------------------|
| Assessor's ID | EES/022419 |
| Telephone | 01455 883 250 |
| Email | enquiries@elmhurstenergy.co.uk |

About this assessment

| | |
|-------------------------------|--------------------------------------------------------------------|
| Assessor's declaration | Employed by the professional dealing with the property transaction |
| Date of assessment | 10 January 2019 |
| Date of certificate | 10 January 2019 |
| Type of assessment | ▶ RdSAP |

Other certificates for this property

If you are aware of previous certificates for this property and they are not listed here, please contact us at mhclg.digital-services@communities.gov.uk or call our helpdesk on 020 3829 0748 (Monday to Friday, 9am to 5pm).

There are no related certificates for this property.
