Energy performance certificate (EPC)		
27 Clare Avenue NEWCASTLE ST5 8EJ	Energy rating	Valid until: 11 February 2034 Certificate number: 2783-4455-3233-1633-9972
Property type		Semi-detached house
Total floor area		89 square metres

Rules on letting this property

You may not be able to let this property

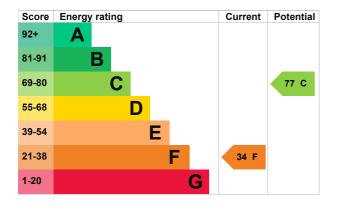

This property has an energy rating of F. It cannot be let, unless an exemption has been registered. You can read <u>guidance for landlords on the regulations and exemptions</u> (<u>https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance</u>).

Properties can be let if they have an energy rating from A to E. You could make changes to <u>improve this property's energy rating</u>.

Energy rating and score

This property's energy rating is F. It has the potential to be C.

<u>See how to improve this property's energy</u> <u>efficiency</u>.

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Cavity wall, filled cavity	Average
Roof	Pitched, 150 mm loft insulation	Good
Roof	Pitched, no insulation (assumed)	Very poor
Window	Fully double glazed	Average
Main heating	Room heaters, electric	Very poor
Main heating control	Programmer and appliance thermostats	Good
Hot water	Electric immersion, standard tariff	Very poor
Lighting	Low energy lighting in 93% of fixed outlets	Very good
Floor	Solid, no insulation (assumed)	N/A
Floor	Suspended, no insulation (assumed)	N/A
Secondary heating	None	N/A

Primary energy use

The primary energy use for this property per year is 415 kilowatt hours per square metre (kWh/m2).

Additional information

Additional information about this property:

Storage heater or dual immersion, and single electric meter
 A dual rate appliance(s) is present with a single-rate supply. A single-rate appliance has been
 used for the assessment. Changing the electricity tariff to an off-peak (dual rate) supply is
 likely to reduce fuel costs and improve the energy rating.

How this affects your energy bills

An average household would need to spend **£3,744 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £1,796 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2024** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 9,674 kWh per year for heating
- 1,971 kWh per year for hot water

Impact on the envi	ronment	This property produces	6.3 tonnes of CO2
This property's environme E. It has the potential to be		This property's potential production	4.8 tonnes of CO2
Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year.		You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.	
Carbon emissions		These ratings are based on assumptions about average occupancy and energy use.	
An average household produces	6 tonnes of CO2	People living at the property may use differ amounts of energy.	rty may use different

Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Floor insulation (solid floor)	£4,000 - £6,000	£195
2. High heat retention storage heaters	£3,200 - £4,800	£1,490
3. Solar water heating	£4,000 - £6,000	£111
4. Solar photovoltaic panels	£3,500 - £5,500	£596

Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme)</u>. This will help you buy a more efficient, low carbon heating system for this property.

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Joanne Blood
Telephone	01782610546
Email	joanneb@firstpropertyservices.co.uk

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	ECMK
Assessor's ID	ECMK304901
Telephone	0333 123 1418
Email	info@ecmk.co.uk

About this assessment

Assessor's declaration	No related party
Date of assessment	12 February 2024
Date of certificate	12 February 2024
Type of assessment	RdSAP
