Energy performance certificate (EPC)		
92 Stanhope Road SLOUGH SL1 6JS	Energy rating	Valid until: 8 October 2033 Certificate number:5090-1936-0222-0307-3073
Property type Total floor area	End-terrace house 69 square metres	

# Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read <u>guidance for landlords on the regulations and exemptions</u> (<u>https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance</u>).

# Energy rating and score

This property's current energy rating is D. It has the potential to be B.

<u>See how to improve this property's energy</u> <u>efficiency</u>.

Score	Energy rating	Current	Potential
92+	Α		
81-91	B		85 B
69-80	С		
55-68	D	59 D	
39-54	E		
21-38		F	
1-20		G	

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

the average energy rating is D the average energy score is 60

# Breakdown of property's energy performance

## Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Solid brick, as built, no insulation (assumed)	Very poor
Wall	Timber frame, as built, partial insulation (assumed)	Average
Roof	Pitched, 100 mm loft insulation	Average
Roof	Pitched, no insulation (assumed)	Very poor
Window	Mostly double glazing	Average
Main heating	Boiler and radiators, mains gas	Good
Main heating control	Programmer and room thermostat	Average
Hot water	From main system	Good
Lighting	Low energy lighting in all fixed outlets	Very good
Floor	Suspended, no insulation (assumed)	N/A
Floor	Solid, no insulation (assumed)	N/A
Secondary heating	None	N/A

#### Primary energy use

The primary energy use for this property per year is 309 kilowatt hours per square metre (kWh/m2).

## How this affects your energy bills

An average household would need to spend £1,942 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could **save £765 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2023** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

## Heating this property

Estimated energy needed in this property is:

- 11,356 kWh per year for heating
- 3,094 kWh per year for hot water

## Impact on the environment

Impact on the enviro	onment	This property produces	3.8 tonnes of CO2
This property's current envir rating is E. It has the potenti	-	This property's potential production	1.2 tonnes of CO2
Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year. CO2 harms the environment.		You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.	
Carbon emissions		These ratings are base about average occupar People living at the pro	ncy and energy use.
An average household produces	6 tonnes of CO2	different amounts of en	

## Changes you could make

Step	Typical installation cost	Typical yearly saving
1. Flat roof or sloping ceiling insulation	£850 - £1,500	£90
2. Internal or external wall insulation	£4,000 - £14,000	£426
3. Floor insulation (suspended floor)	£800 - £1,200	£91
4. Add additional 80 mm jacket to hot water cylinder	£15 - £30	£46
5. Solar water heating	£4,000 - £6,000	£113
6. Solar photovoltaic panels	£3,500 - £5,500	£681

## Help paying for energy improvements

You might be able to get a grant from the Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-<u>upgrade-scheme</u>). This will help you buy a more efficient, low carbon heating system for this property.

# Who to contact about this certificate

**Contacting the assessor** If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Miles Touchard
Telephone	07774937022
Email	milestouchard@gmail.com

## Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	Elmhurst Energy Systems Ltd
Assessor's ID	EES/023193
Telephone	01455 883 250
Email	enquiries@elmhurstenergy.co.uk

## About this assessment

Assessor's declaration	No related party
Date of assessment	7 October 2023
Date of certificate	9 October 2023
Type of assessment	RdSAP
