Energy performance certificate (EPC)

7 Broadgate Crescent Kingskerswell	Energy rating	Valid until:	20 June 2033			
NEWTON ABBOT TQ12 5EB		Certificate number:	9537-8626-1200-0259-7226			
Property type						

Ground-floor flat

Total floor area

50 square metres

Rules on letting this property

Properties can be let if they have an energy rating from A to E.

You can read guidance for landlords on the regulations and exemptions (https://www.gov.uk/guidance/domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Energy rating and score

This property's current energy rating is D. It has the potential to be C.

See how to improve this property's energy efficiency.

Score	Energy rating	Current	Potential
92+	Α		
81-91	B		
69-80	С		74 C
55-68	D	63 D	
39-54	E		
21-38	F		
1-20		G	

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in England and Wales:

- the average energy rating is D
- the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Feature	Description	Rating
Wall	Cavity wall, as built, no insulation (assumed)	Poor
Wall	System built, as built, no insulation (assumed)	Very poor
Window	Fully double glazed	Average
Main heating	Electric storage heaters	Average
Main heating control	Controls for high heat retention storage heaters	Good
Hot water	Electric immersion, off-peak	Average
Lighting	Low energy lighting in all fixed outlets	Very good

https://find-energy-certificate.service.gov.uk/energy-certificate/9537-8626-1200-0259-7226

Feature	Description	Rating
Roof	(another dwelling above)	N/A
Floor	Suspended, no insulation (assumed)	N/A
Secondary heating	Room heaters, electric	N/A

Primary energy use

The primary energy use for this property per year is 471 kilowatt hours per square metre (kWh/m2).

About primary energy use

Additional information

Additional information about this property:

- Cavity fill is recommended
- System build present
- · Dwelling may be exposed to wind-driven rain

How this affects your energy bills

An average household would need to spend £1,153 per year on heating, hot water and lighting in this property. These costs usually make up the majority of your energy bills.

You could save £364 per year if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2023** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Heating this property

Estimated energy needed in this property is:

- 5,238 kWh per year for heating
- 2,141 kWh per year for hot water

Saving energy by installing insulation

Energy you could save:

• 1,050 kWh per year from cavity wall insulation

Environmental impact of this property

This property's current environmental impact rating is E. It has the potential to be D.

Energy performance certificate (EPC) - Find an energy certificate - GOV.UK

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO2) they produce each year. CO2 harms the environment.

Carbon emissions

An average household produces

6 tonnes of CO2

This property produces

3.9 tonnes of CO2

This property's potential production

2.7 tonnes of CO2

You could improve this property's CO2 emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Do I need to follow these steps in order?

Step 1: Cavity wall insulation

Typical installation cost	£500 - £1,500
Typical yearly saving	£160
Potential rating after completing step 1	
	68 D
Step 2: Floor insulation (suspended floor)	
Typical installation cost	
	£800 - £1,200
Typical yearly saving	£142
Potential rating after completing steps 1 and 2	
	72 C
Step 3: Replacement glazing units	
Typical installation cost	
	£1,000 - £1,400
Typical yearly saving	£61
Potential rating after completing steps 1 to 3	
	74 C

Help paying for energy improvements

You might be able to get a grant from the <u>Boiler Upgrade Scheme (https://www.gov.uk/apply-boiler-upgrade-scheme</u>). This will help you buy a more efficient, low carbon heating system for this property.

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name

Linda Clake

Telephone

01803 865801

Email

lclakeuk@yahoo.co.uk

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme

Elmhurst Energy Systems Ltd

Assessor's ID

EES/002294

Telephone

01455 883 250
