Full Description

An exquisite two-bedroom cottage in the heart of Great Missenden, Buckinghamshire — seamlessly blending period charm with a bold, contemporary twist. Meticulously extended and refurbished throughout, this home boasts bespoke finishings, high-spec detail, and a flair for modern design. With striking interiors, versatile living spaces, and an enviable location backing onto open fields, this is a home that truly has it all.

At the heart of the property lies a stunning open-plan kitchen and dining room, designed for both everyday living and entertaining in style. With sleek cabinetry, integrated appliances and luxurious surfaces, this space flows effortlessly into a welcoming dining area, creating the perfect setting for family gatherings and dinner parties alike. A beautifully finished living room sits at the front of the home, while a conveniently placed cloakroom adds a practical touch to the ground floor.

Upstairs, each of the two bedrooms benefits from its own shower and bathroom, providing privacy and comfort in equal measure. The bathrooms themselves are a true highlight, finished with flair and individuality. One, in particular, offers a spectacular centrepiece: a gold bathtub set against funky, vibrant décor, bringing a sense of playful luxury rarely found in properties of this kind. Both bedrooms are generous in size and beautifully presented, with bespoke details that make them as practical as they are stylish.

Beyond the main house, a detached studio sits in the garden, complete with its own shower room. This versatile space offers endless possibilities, whether as a home office, guest suite, creative workshop or private gym, blending seamlessly with the home while offering valuable additional accommodation.

The garden itself is a generous size and has been thoughtfully landscaped, with a terrace for alfresco dining and a lawn that leads towards open fields at the rear. The outlook is tranquil and green, providing a sense of space and seclusion that is rare in such a central village setting..
